

CHURCHES

Okholm Lighting specializes in church lighting and has renovated, restored, developed, designed, and installed new lighting solutions in more than 1,700 churches across Denmark, Norway, Sweden, and Germany—working in close collaboration with architects, lighting designers, parish councils, and others. We have extensive experience preserving the original lighting in churches and converting it to modern LED technology.

For further details, please visit our dedicated CHURCHES section. If you have any questions, feel free to contact Okholm Lighting.
